A subsonic charge of 320 m/s with a 170-grain Sierra Pro-Hunter FP warhead.

Cartouches Sologne offers a subsonic .30-30 Winchester cartridge for rifles chambered for this caliber. Its muzzle velocity of 320 m/s limits the sound signature when used with a suitable suppressor, as indicated by the manufacturer.

The **Sologne Klassic .30-30 Win Pro-Hunter 170 gr Subsonic** cartridge is fitted with a 170-grain (11 g) Sierra Pro-Hunter FP bullet. It delivers 564 joules of energy at the muzzle and retains 506 joules at 100 m. These values allow for a precise assessment of its ballistic behavior before determining its appropriate use and range.

Packaged in boxes of 20, these cartridges are intended for users seeking a load with a controlled velocity. The rifle's zeroing must be checked with this ammunition before any use in the field.

Technical specifications

- **Caliber:** .30-30 Winchester
- **Range:** Klassic Subsonic
- **Warhead:** Sierra Pro-Hunter FP
- **Projectile weight:** 170 grains / 11 g
- **Packaging:** box of 20 cartridges
- **Category:** C 8°

Ballistic data

Distance	Speed	Energy
muzzle of the cannon	320 m/s	564 J

Distance	Speed	Energy
50 m	311 m/s	533 J
100 m	303 m/s	506 J

A .30-30 Winchester cartridge with subsonic velocity

The **Sologne Klassic .30-30 Winchester Subsonic** achieves a muzzle velocity of 320 m/s. This low-velocity load is intended for use in a rifle chambered in **.30-30 Winchester** , with a sound moderator adapted according to the manufacturer's instructions.

170-grain Sierra Pro-Hunter FP bullet

The cartridge is fitted with a 170-grain (11 g) **Sierra Pro-Hunter FP bullet** . The FP designation refers to its flat-point profile. This configuration delivers a muzzle energy of 564 J.

A box of 20 subsonic cartridges

Each box contains 20 cartridges of **.30-30 Winchester** caliber. Before use, the firearm chambering must exactly match the indicated caliber. Tuning performed with standard ammunition should not be considered automatically valid for this subsonic load.

Acquisition conditions and regulations

These cartridges fall under **category C 8°** . Their purchase is reserved for adults with valid identification, an open SIA account, and either a hunting license with its current or previous year's validation, or a valid shooting or clay pigeon shooting license. The corresponding firearm registration receipt is not required to purchase cartridges classified under C 8°.

Carrying ammunition is prohibited without a legitimate reason, and transport must be for a legitimate reason. At home, ammunition must be stored out of public access, in a safe, a strongbox, a locked cabinet, or a locked drawer, and separate from firearms. There is no maximum quota for home possession of legally acquired Category C 8° ammunition.

FAQ - Sologne Klassic .30-30 Win Subsonic 170 gr

Should the rifle's zeroing be checked with this subsonic ammunition?

Yes. Its speed and trajectory differ from those of a standard load. The settings must be checked with this cartridge before field use.
