ECHO1 is a well-known brand in the **airsoft** world for its reliable and affordable replicas. In collaboration with WELL, it offers innovative models combining **performance** , **ergonomics** , and **robustness** , suitable for both regular players and demanding enthusiasts.

A compact, mobile airsoft minigun with an impressive rate of fire.

The **ECHO1 Minigun WE23-SLBB Sportsline** is a four-barrel electric airsoft replica, designed to offer a high volume of fire while remaining maneuverable on the field.

- **Type:** Electric airsoft minigun
- **Firing mode:** automatic
- **Magazine capacity:** 1200 BBs
- **Speed:** 250 FPS (0.20g)
- **Energy:** 0.58 joules
- **Rate of fire:** 27 to 29 balls/second
- **Hop-up:** adjustable
- **Length:** 515 mm
- **Weight:** 1.8 kg

- **Materials:** Reinforced polymer
- **Connector:** T-connector

A replica designed for dynamic gameplay

On the field, this **ECHO1 Minigun WE23-SLBB Sportsline** is a clear game changer. From the moment you pick it up, you appreciate its lightness and compact design. It allows for easy movement while maintaining impressive suppression power - exactly the kind of equipment that commands respect in a game.

Rate of fire and consistent performance

With a rate of fire of up to nearly 29 BBs per second, this **airsoft minigun** delivers a continuous stream of fire that is particularly effective for cover. Its dedicated electrical system ensures consistent performance, while the multiple barrels with **adjustable hop-up** allow for trajectory adjustments to optimize accuracy.

Lightweight and sturdy design

Its **reinforced polymer** construction offers an excellent compromise between strength and reduced weight. As a result, even during prolonged use, fatigue remains minimal. The chainsaw-style handle provides a natural, intuitive, and stable grip.

Modularity and customization

Thanks to the **M-LOK** system on the front, adding tactical accessories is easy. Flashlight, grip, laser... everyone can adapt the configuration to their playing style.

Autonomy and capacity adapted to the terrain

Its **1200-round** box magazine maintains consistent pressure without frequent reloading. The sight window is a practical detail that's appreciated during gameplay - it prevents unpleasant surprises.

FAQ

What type of battery should I use?

This model operates with an 11.1V LiPo battery equipped with a T-connector (not included).

Is this replica suitable for beginners?

Yes, thanks to its ease of use and robustness, it is suitable for both beginners and experienced players.

What type of marbles should I use?

It is optimized for 0.23g to 0.25g BBs to achieve a good balance between range and accuracy.
