## GPA

SKU	Designation	French Law	Caliber	Bullet type	Energy (J)	Speed (m/s)	Pack.	Grains	MSRP
BG7643	Cal. 7 x 64 GPA type	C	7 x 64	GPA	3389	835	20	150	100.00 € incl. tax

French monoblock bullet ammunition (GPA) specially designed for the most resistant game.

The guarantee of optimal penetration and a significant shock effect.

What characterizes the GPA ball the most is undoubtedly its effectiveness. This ball can be presented as a programmed fragmentation ball. The compression of fluid in the central channel causes, at first, a deformation of the front part (mushrooming) which triples the nominal diameter of the projectile, then, only under the effect of resistance, occurs the separation of the petals.
