A compact and modular tactical belt, adjustable from 88 to 110 cm.

The **CORSO Hook Laser MK4** is a low-profile tactical belt made of high-strength polyester. Its 45mm width provides a stable base for organizing gear without creating excessive bulk around the waist. The laser-cut MOLLE system allows for the attachment of compatible pouches and accessories as needed.

A low-profile tactical belt

The **CORSO Hook Laser MK4** features a compact 45mm width. This design allows for easy attachment of accessories around the waist while maintaining a low-profile configuration. Its **high-strength polyester** construction is suitable for regular use with compatible tactical gear.

A modular MOLLE platform

Laser-cut MOLLE openings allow compatible pouches and accessory holders to be positioned wherever desired. This enables the user to organize their belt according to their equipment and modify the layout as their needs change.

Quick-release metal buckle

The tactical metal buckle allows for quick opening and closing of the belt. Its adjustment system accommodates waist sizes between 88 and 110 cm. This range corresponds to size S/M of the **Hook Laser MK4** model.

A versatile black finish

The black color blends easily with an outfit or a set of tactical accessories of the same finish. The belt's clean silhouette prioritizes equipment organization and access to items attached to the MOLLE webbing.

Frequently Asked Questions

What is the MOLLE Laser Cut system?

It relies on laser-cut openings in the support to create MOLLE attachment points.

What accessories can be installed on this belt?

It accommodates pouches and accessory holders equipped with a compatible MOLLE attachment system.
