A practical solution for equipping an AK platform

The **Mount Base AK Series** transforms a compatible AK replica into a platform ready to accept various sighting systems. Once installed, it allows for the quick addition of a scope or red dot sight without altering the replica's overall appearance.

21 mm standard rail

The **21mm** top rail ensures compatibility with a wide range of airsoft accessories: red dots, compact scopes, tactical sights or reflex sighting systems.

AK-type side mounting

This support uses the lateral mounting system typical of AK platforms. This configuration is particularly appreciated for its stability and reliable support during movement and handling in the field.

More versatile configuration

Adding optics improves aiming comfort and facilitates rapid target acquisition. This is exactly the type of accessory sought after to modernize an AK replica while preserving its visual identity.

- **Compatibility:** AK replicas compatible with side rail
- **Rail type:** 21 mm standard
- **Compatible accessories:** Glasses, red dot sights, reflex sights
