### Eagle walking shoes in polyamide and MTD membrane.

ABOND MTD waterproof shoe in MTD polyamide fabric for all-weather hunts.

- Split leather and polyamide upper for support and durability
- MTD membrane: prevents water from entering and allows perspiration to evaporate.
- Rubber soles guarantee resistance to abrasions from the ground

#### Description:

The Huntshaw MTD model in leather crust and polyamide fabric combines robustness, style and comfort. It is equipped with a MTD membrane to allow the foot to stay dry and evaporate perspiration. Front parépierrres for a better resistance. The anatomic insole gives you more comfort. The outsole is rubber with a marked relief for better grip. Upper: protection and durability membrane MTD: helps keep feet dry and wick away perspiration Stone guard front and rear: extra resistance and durable Insole: comfort notched sole: grip

#### Interview :

- Clean the inside and outside of the shoe with a damp, lint-free cloth.
- Never dry wet shoes near a heat source or in direct sunlight.
- Care of leather with a velvet aspect (leather crust, nubuck): brush the surface with a soft brush in order to remove the dust then apply a waterproofing agent (never use polishing).
- Care of smooth-look leathers: wipe the surface with a soft, damp cloth and apply a small amount of wax-based product to create a protective film on the shoe.
