Long distance - Effective up to 80 meters.

His loud bang (130 db) will give the alert while contributing to the intimidation of the aggressor.

Sold by 5.

The Gomm-Cogne is a rubber ball cartridge specially designed for protection, offering an alternative to the use of traditional weapons.

Its projectile, made of rubber material, develops an energy capable of neutralizing a possible aggressor while minimizing the risk of injury or death.

Available for caliber 12/70 mm.

Caution - fired within 35 yards, it can cause fatal injury.

Note: The decision to use a firearm, even a loaded one with a rubber projectile, should only be taken in cases of force majeure and in the context of self-defence. If the GOMM-COGNE is a neutralization ammunition it remains capable, in particular at close range, of causing serious injuries. It is advisable not to use it within 40 meters.

The use is made under the responsibility of the user. Keep out of the reach of children. Fire or projection hazard. Keep away from heat, hot surfaces, sparks, open flames and all sources of ignition. Do not smoke while handling projectiles.
