### The waterproof, comfortable, soft and durable hunting boot!

Handmade in France, the Aiglentine rain boot asserts its character with its tightening strap and notched sole. Its cavalier cut and curved shape give it a feminine look.

Our boots are composed of:

- Majority natural rubber: resistance, insulation and flexibility
- Self-cleaning notched sole: grip and grip
- Softex ® lining: washable with a sponge and quick drying

### Total sealing

The boot is made of natural rubber to ensure total waterproofing. Not a pair slips through the cracks: the waterproofness of each pair of boots manufactured is tested! The boot is filled with air and then submerged in water. If no bubble appears, it fulfills its functions and can now accompany you.

### Very adherent

The compound of the sole is designed to offer optimal grip and increased longevity of the sole: ideal for slippery surfaces and soft ground.

- **Composition**

- Upper: Majority natural rubber.
- Lining: 100% polyamide.
- Outsole: Rubber.

- **Interview**

- Clean the boot after each use with clear or slightly soapy water (PH Neutral).
- Wipe the boots with a lint-free cloth.
- A few times a year, or more often if you use your boots daily, apply a dose of Swipol to treat the rubber and allow it to regain its original appearance.
- Keep away from light and any source of heat, in an upright position after having cleaned it.
-
