Monstrum CR123A 3V batteries - bag of 2

<https://www.europarm.fr/en/produit-18695-Monstrum-CR123A-3V-batteries-bag-of-2>

SKU	Designation	French Law	Diam. (mm)	Height (cm)	Tension (v)	Battery	MSRP
LC4152	Monstrum CR123A 3V batteries - bag of 2	Vente libre	17	3.45	3	CR123A	5.00 € incl. tax

On average, CR123A lithium batteries last 4 to 10 times longer than traditional alkaline batteries.

High-performance power sources, 3-volt CR123A lithium batteries, colloquially called "stick batteries", provide exceptional reliability and a much longer life than conventional batteries. Their advanced lithium technology is designed to meet the most demanding energy needs in various applications.

Non-rechargeable batteries.

CR123A lithium batteries stand out primarily for their ability to maintain stable and constant power, even in harsh conditions. This reliability makes it the preferred choice for various devices such as flashlights, cameras, smoke detectors, security systems, binoculars, outdoor equipment, and many more. Whatever the circumstances, these batteries remain reliable to guarantee an optimal level of performance.

Exceptional durability remains one of the major advantages of these batteries. On average, CR123A lithium batteries provide 4 to 10 times longer usage time than traditional alkaline batteries. This increased longevity reduces the frequency of replacements, saving you time and money in the long run.

Lithium technology has the added benefit of ensuring optimal voltage stability over the life of the battery. This power constancy persists even when energy decreases, thus avoiding sudden drops in performance and the risk of unexpected breakdowns in your electronic devices.
