D-control 401+ (manufacturer's name) is an easy-to-use electronic training collar with a range of 250 meters, ideally suited for everyday use. It offers 20 levels of correction intensity by electrical impulses, thus making it possible to graduate training from a sensation of vibration to a correction comparable to a strong discharge of static electricity.

The electrodes delivered with are removable to adapt to the coat of the dog. 21 mm electrodes for long hairs available separately.

The Receiver Collar emits an audible signal and medium-intensity stimulations. The remote control has an LCD display.

Contains: 1 receiver collar with a strap and a clasp, 1 transmission remote control, 2 sets of electrodes (12 mm & 17 mm), 4 3-volt lithium batteries, 1 neon test lamp, 1 strap for the remote control, the user guide and warranty certificate.

Remote control: Dimensions: 110 x 50 x 28 mm / Weight: 64 g.

- Comes with 12mm (short hair) and 17mm (medium hair) electrodes.

Receiver collar: Dimensions: 62 x 42 x 30 mm / Weight: 100 g (box and battery).

**Supplied with a guarantee certificate! The product is guaranteed for two years from the date of purchase!**
