OP364	Aimpoint Compact CRO - 2 MOA	Vente libre	12.5	4.9	200	30 mm	CR 1/3N	Black	943.00 € incl. tax

Instant precision for sport shooting such as driven hunts.

The CRO is part of the Aimpoint series of red dots used on both military reconnaissance and sports shooting.

- 1 battery ensures an autonomy of 50 000 hours or 5 years of continuous use!
- Very precise red point of 2 MOA with 9 levels of waterproof illumination.
- Weight: 200g only, 358g with mounting and windshields.
- Comes with a 3V Lithium CR1 / 3N type battery and a massive 30mm collar with a quick mounting system.

Optics designed for competition

Designed specifically for rapid competitive shooting, this **2 MOA red dot** sight offers **9 intensity levels**, ensuring optimal visibility in all lighting conditions. Its design allows for instinctive aiming with both eyes open, a decisive advantage on dynamic courses.

Quick and smart assembly

The included **QRP2 mount** allows for secure attachment to a Picatinny rail without risk of damage. The **removable spacer** allows for height adjustment to suit the weapon's configuration. The assembly remains compact and ergonomic, ensuring **optimal optical alignment**.

- **Mounting:** QRP2 with integrated 30 mm collar
- **Spacer:** supplied and removable

Extreme robustness

Machined from a **hardened aluminum alloy**, the optical body encases the lenses to protect them from impacts and scratches. 100% waterproof, it withstands rain, mud, and sand without fail. The **front and rear**

covers provide optimal protection during transport or when not in use.

- **Construction:** aeronautical aluminum
- **Protection:** recessed lenses, covers included
- **Front thread:** compatible with ARD filter

Unbeatable battery life

Thanks to optimized electronic management, the sight can remain continuously illuminated for **up to 5 years** (50,000 hours) on a single **CR1/3N battery** . Perfect for shooters requiring constant availability without frequent maintenance.

- **Battery life:** 50,000 hours (medium mode)
- **Battery included:** CR1/3N 3V lithium

FAQ

- **Is this sight suitable for military use?**

Yes, it meets the robustness standards of Aimpoint optics intended for armed forces.

- **Can it be used with a magnifying glass like the Aimpoint 3XMag?**

Yes, it is fully compatible with Aimpoint magnifying modules.

- **Does the assembly damage the rail?**

No, the QRP2 system prevents overtightening thanks to an intelligent locking mechanism.
