Available in right or left handed version

Its robust barrel and reduced dimensions make it an ideal companion for sport shooting or competition. The double trigger and adjustable rear sight allow optimum precision in all conditions. The stock, made of American walnut, features shiny polished brass fittings and patchbox.

Available in flint or percussion, and in right and left handed versions.

Following the great success of the Hawken models "Rocky Mountain" and "Missouri River", it is with pleasure that Davide Pedersoli presents this version, simplified and lightened, but retaining a classic and elegant style.
