Approved by Raniero Testa! A lighter, faster, and more ergonomic rifle!

The camouflage of this semi-automatic eliminates any risk of unwanted reflections that can be detrimental to small game bird hunting. Like the entire SX4 range of semi-automatic shotguns, the bore of its barrels and its chamber are chrome-plated to protect the weapon from wear caused by projectiles; in addition, thanks to its Inflex Technology butt plates (wider than those of its illustrious predecessor SX3), this version provides shooting comfort that is all the more appreciable when using 89 chambered ammunition.

Black Shadow Composite: robustness and discretion

The **SX4 Composite Black Shadow** is made of durable synthetic material to withstand the most demanding conditions. Its matte black design limits unwanted reflections when **hunting big or small game** .

Exclusive technologies

Thanks to the **Quadra-dent system** , the rifle optimally vents gases, limiting the recoil effect. Combined with the **Active Valve gas piston** , it automatically adapts to all loads, from the lightest to the most powerful.

Perfect grip

The **Inflex Technology buttplate** and slim pistol grip ensure a secure grip and optimal comfort. The enlarged bolt lever and oversized release button facilitate gloved operation.

Reliability and security

The **ambidextrous safety** and spacious trigger guard ensure easy handling for both right and left-handed users, even in cold weather. The Nickel Teflon coating protects moving parts from corrosion.

Technical characteristics

- Caliber: 12/89

- Barrel: 71 cm or 76 cm, Back-bored
- Stock length: 36.2 cm
- Front busk slope: 4.4 cm
- Back slope of busk: 5.1 cm
- Rail width: 12 mm
- Truglo fiber optic handlebar
- Comes with 3 Invector Plus chokes (1/4, 1/2, 3/4)
