Optimal precision and controlled mushroom picking for small game and medium game.

Designed for demanding hunters, these ammunitions combine precision and efficiency in the field.

- **Caliber** : 6.5x57 R
- **Bullet type** : KS (Kegelspitz) conical point
- **Weight** : 127 gr / 8.2 g
- **Initial velocity** : 800 m/s
- **Initial energy** : 2624 J
- **Packaging** : Box of 20 cartridges

A design thought out for efficiency

This **KS conical tip** ammunition is specially developed to provide **high accuracy** and **stable deformation** on impact. Its structure combines a calibrated jacket and a dense lead core, allowing **controlled** mushrooming and **uniform energy dissipation**.

Ballistic behavior

The external shape of the bullet reduces air resistance and promotes a taut trajectory, ideal for precision shooting at medium and long ranges. The **very high stopping power** and regular output guarantee an effective result even on medium game.

Ballistic data

Performance measured with a 600 mm gun:

- **0 m**: 800 m/s - 2624 J
- **50 m**: 759 m/s - 2362 J
- **100 m**: 720 m/s - 2125 J

- **150 m:** 682 m/s - 1907 J
- **200 m:** 645 m/s - 1706 J
- **250 m:** 609 m/s - 1521 J
- **300 m:** 574 m/s - 1351 J

Recommended applications

This cartridge is particularly suitable for hunting **large** and **medium** game, with light recoil and optimal preservation of the venison. Its regular ballistics allow safe shots up to 210 m.

A trusted choice for hunters seeking consistent ballistic performance and impeccable accuracy.
