RE9299	Pedersoli Chimney Adapter 209 1/4-28 UNF	Vente libre	39.00 € incl. tax

Easily convert your percussion firearm for use with 209 type hunting primers.

The **Pedersoli 209 1/4-28 UNF Chimney Adapter** allows the use of 209-type hunting primers on a firearm designed for percussion caps. This accessory facilitates certain specific shooting applications while maintaining a simple installation.

- **Brand:** Davide Pedersoli
- **Type:** Chimney adapter
- **Thread:** 1/4"-28 UNF
- **Compatibility:** 209 type primers
- **Function:** Conversion of a capsule system to a primer 209
- **Installation:** direct replacement of the original compatible chimney
- **Manufacturing:** machined steel
- **Sold individually**

A simple conversion to 209 type primers

The **Pedersoli 209 1/4-28 UNF Chimney Adapter** replaces the original chimney to allow the use of 209-type hunting primers on certain compatible percussion firearms. This solution is appreciated by shooters seeking an alternative ignition source for specific applications.

Standard 1/4"-28 UNF thread

Thanks to its **1/4"-28 UNF** thread, this adapter is designed for compatible firearms using this nipple size. Its careful construction ensures a precise fit and quick installation during maintenance or conversion work.

Pedersoli manufacturing

Like all **Pedersoli** accessories, this part benefits from quality machining allowing for good mechanical resistance and optimal compatibility with the weapons concerned.

Manufacturer's recommendation

The manufacturer recommends using this adapter for indoor shooting with primers only. According to Pedersoli, using it with black powder generates blowback gases that could damage the adapter and create a risk of accident.

Additional features

- **Reference:** 209 conversion adapter
- **Intended for** use with percussion weapons
- **Installation:** Chimney replacement
- **Use:** 209 type hunting primers
- **Origin:** Italian made

FAQ

What is the purpose of this chimney adapter?

It allows the use of type 209 hunting primers on a compatible percussion firearm equipped with a 1/4"-28 UNF thread.

Is this model compatible with all percussion firearms?

No, compatibility depends primarily on the thread of the original chimney. This adapter is designed for models using a 1/4"-28 UNF thread.

Can this adapter be used with black powder?

The manufacturer recommends using it with the primer alone. Using it with black powder can generate blowback gases that may damage the adapter and pose a safety hazard.
