## Sologne .308 Win central percussion cartridges with GPA bullet

<https://www.europarm.fr/en/produit-12140-Sologne-.308-Win-central-percussion-cartridges-with-GPA-bullet>

SKU	Designation	French Law	Caliber	Bullet type	Energy (J)	Speed (m/s)	Pack.	Grains	MSRP
BG3081	Cal. 308 WIN type GPA	C	.308 Win	GPA	3733	800	20	180	98.00 € incl. tax

French monoblock ammunition (GPA) specially designed for the most resistant game of 308 caliber Winchester also designated 7.62x51 Nato or 7.62x51 NATO.

The guarantee of optimal penetration and a significant shock effect.

What characterizes the GPA ball the most is undoubtedly its effectiveness. This ball can be presented as a programmed fragmentation ball. The compression of fluid in the central channel causes, at first, a deformation of the front part (mushrooming) which triples the nominal diameter of the projectile, then, only under the effect of resistance, occurs the separation of the petals.
