A design dedicated to long-range shooting

This **single-shot 12/76 gauge shotgun** is distinguished by its **81 cm long barrel**, a particularly suitable choice for long-range shooting. In the field, this extra length allows for better use of the shot load, resulting in a more consistent pattern and a more stable trajectory.

Simple and reliable mechanics

The tilting action with top lever opening ensures smooth and intuitive handling. The **single trigger** combined with a spring mechanism guarantees a clean strike. The mechanical extractor facilitates cartridge case ejection after firing, for uncomplicated use.

Ventilated band for optimal alignment

Equipped with a **7mm ventilated rib**, this model improves aiming by reducing mirage effects during repeated shots. The teardrop-shaped front sight provides a quick and effective visual reference, even in varying lighting conditions.

Neat finish and classic ergonomics

The receiver features a chrome-plated receiver with laser engraving, a signature aesthetic of **Investarm** products. The wooden pistol grip (walnut or beech depending on the version) ensures a

natural hold. The weight of **2.75 kg** contributes to good overall balance, which is particularly appreciated during extended shooting sessions.

Easy transport and storage

Thanks to its folding design, this rifle is easy to transport and store. This is a real advantage for mobile users or those with limited space.

FAQ

What type of cartridges should I use with this rifle?

This model is chambered in 12/76, so it accepts 70 mm and 76 mm (Magnum) cartridges.

Does the long barrel offer a real advantage?

Yes, an 81 cm barrel promotes better shooting stability and a more regular shot pattern, particularly useful for long-range shooting.

Is this rifle easy to carry?

Yes, its folding design reduces bulk, making it easier to transport and store.
