MD922	22 Lr ELEY Subsonic HP	C	.22 LR	Hollow point	123	317	Lead	500	133.00 € incl. tax

Subsonic ammunition intended for the regulation of pests. 38 grain expansive hollow point lead warhead.

10 boxes of 50 or 1 box of 500.

Sold to gunsmiths in packs of 10 boxes of 50 rounds.

ELEY subsonic hollow is a low-speed, low-speed shooting and hunting cartridge that offers a quieter ballistic profile than other .22LR hunting cartridges. It is designed and manufactured to give the best results with rifles equipped with sound moderators.

With its innovative hollow tip warhead, the ELEY subsonic hollow projectile offers unrivaled expansion characteristics, resulting in short penetration with exceptional stopping power; essential characteristics for the control of vermin. The non-greasy lubricant covering the cartridge ensures proper operation in semi-automatic rifles and improves operation in harsh weather conditions.

Increasingly popular with sports shooters and pest control professionals, ELEY subsonic hollow is considered one of the quietest and most accurate subsonics on the market.
