An eyepiece inspired by models used during the 1800s, adjustable in elevation and windage, functional, and particularly suitable for hunting. The reduced diameter of the flag (4mm) allows rapid and instinctive aiming, and the size of the aperture allows use even in low light. The center distance of the fixing screws is 45.30mm. The additional parts supplied with this sight allow it to be mounted on the following Pedersoli guns: Traditional Hawken, Express Kodiak, side-by-side percussion shotguns and Howdah. Note that, to use it on our juxtaposed shotguns, the front sight must be replaced by a model with a minimum height of 17mm. Likewise for the Howdah on which you will need a handlebar with a minimum height of 14mm.

**Europ-Arm, official importer of Davide PEDERSOLI weapons and accessories, distributes the entire Pedersoli range.**

**If you cannot find one of the brand's references on this site, contact us directly to order it.**

**Sale to gunsmiths only.**
