French quality and production since 1930

High hunting socks with a RESISTEX BIO-CERAMIC polyester sole that provides high thermal insulation and maintains a constant body temperature even in extremely cold conditions. FRICTION FREE technology, fiber with a very low friction coefficient. Prevents blisters. Breathable fiber for quick drying.

- Comfort upper.
- Achilles heel protectors.
- Friction Free heel and toe.
- Ergonomic shin protection in Climayarn.
- Tightening of the ankle and arch of the foot.
- Dimensional stability, resistance to use.
- Second skin effect, optimizes the fit on the foot.

TECHNICAL PARAMETERS:

Ergo'Technicity System

Precision and ergonomics for optimum control of your movements: 3D knitting to create a "formed" heel / Reinforced heel and toe areas / Soft, non-compressing edge suitable for all sizes / Perfect fit with adjusted sizes.

Adaptive Ergonomic System

Incorporates protective zones into the sock design, adapted to the morphology of the foot and the specific requirements of high-intensity sports. High heel reinforcement / Toe reinforcement / Shin reinforcement / Lateral reinforcements / Left foot-right foot ergonomics.

Optimum Foot Fit

Tightenings are integrated according to specific practices and conditions of use, mainly on the arch of the foot and the malleoli, to gain precision during exercise.

3 Layer System

3-layer knit: The central weft or "frame" of the sock is made of Polyamide to provide strength, dimensional stability and moisture transfer to the outside. The outer layer of thermoregulating fiber acts as a heat shield, protecting the foot from the outside elements. The inner layer of terry creates a cushion that provides cushioning and comfort.

COMPOSITION :

- 36% Polypropylene
- 30% Polyester
- 21% Polyamide
- 9% Wool
- 4% Elastane
- Breathability: * * *
- Thickness : * * *
- Comfort : * * *
- Thermoregulation: * * * *
