A rifle designed for waterfowl hunting

The **Yildiz SPZ SM Camo 12/76 Over-and-Under Shotgun** was specifically developed for **duck** and **waterfowl** hunters. Its Mossy Oak Duck Blind camouflage allows it to blend naturally into marsh, reedbed, and wetland environments where discretion is a real asset.

76 cm barrel for long-range shooting

Its 76 cm barrel promotes a smooth swing and excellent stability when shooting at moving birds. This length is particularly appreciated for waterfowl hunting, where shooting distances can be greater. The barrel is made of 4140 steel, drilled from a solid block to guarantee robustness and longevity.

Camouflage Mossy Oak Duck Blind

The synthetic stock and forend are finished with a camouflage pattern inspired by the habitats of waterfowl. This finish helps reduce the weapon's visibility while offering excellent resistance to moisture, scratches, and the harsh conditions encountered during marshland outings.

Lightweight rocker and excellent maneuverability

The aircraft-grade aluminum alloy tipping mechanism keeps the total weight to just 2.95 kg. This weight reduction improves comfort during transport while maintaining excellent mechanical robustness.

Versatility thanks to the five interchangeable chokes

The shotgun comes with five interchangeable chokes, allowing the shot pattern to be adapted to different hunting conditions and shooting distances. This versatility is a significant advantage for hunters operating in various terrains.
