- 5 year warranty

Silver Pigeon I: Best value for money in a shotgun

The 686 Silver Pigeon I shotgun has all the functional features of a superimposed shotgun at a particularly attractive price. It has the most powerful action 686 in its class, compact and discreet while being extremely resistant. Besides the 12 caliber, this shotgun is also available with very fine actions for the 28 caliber and the .410 caliber, for a true superior quality experience. Whether you go hunting in the mountains or at the shooting range, the Silver Pigeon I offers you the impeccable performance and classic look of a Beretta.

Exceptional balance

The Silver Pigeon I Sporting is built on the legendary Action 686, a longtime favorite of hunters and competitive shooters. It has two tapered mid-action locking tabs, located just between the barrels, which gives it great locking force and durability while maintaining the action profile considerably lower. The advantage is that the shooter's eye is much closer to the plane of the supporting hand: considerably improved swing and eye-hand coordination.
