MCX rifle only with open sights.

The **SIG AIR** MCX Gen II is a **CO?** -powered semi-automatic rifle in **.177 (4.5 mm)** caliber, equipped with a 30-round magazine, a 46 cm rifled barrel, and an M-LOK handguard for accessories.

- **Action:** Semi-automatic (CO?)
- **Caliber:** .177 (4.5 mm)
- **Magazine capacity:** 30 pellets
- **Barrel:** Rifled, 46 cm (18")
- **Propulsion:** 88g CO? cartridge (housed in the stock)
- **Sights:** Adjustable folding components (rear sight/front sight)
- **Rails:** M1913 Picatinny + M-LOK handguard
- **Weight:** ~3.27 kg
- **Length:** 883 mm
- Comes with a 30-round magazine and sight adjustment tool

Designed for recreational shooting and training

The **MCX Gen II** retains the modular design of the original model while offering a configuration optimized for the **.177** caliber. Its **30-round** capacity allows for rapid bursts, ideal for gong shooting, practice sessions, or demonstrations.

CO? propulsion & performance

Powered by an 88g **CO?** cartridge, the rifle delivers a claimed velocity of up to **545 fps** , depending on the pellet weight and type. Energy and velocity vary depending on the projectile used and the ambient temperature.

Charger, speed and ergonomics

The 30-round magazine ensures a sustained rate of fire in semi-automatic mode. The **M-LOK** handguard, Picatinny rail, and partially metal receiver allow the rifle to be equipped with optics, lights, and a bipod while maintaining a typical MCX grip: reduced-angle handle, adjustable stock, and contoured butt plate.

Rifled barrel and precision

The 46 cm (18") rifled steel barrel offers good length to stabilize **.177 pellets** and improve accuracy, especially with projectiles in the recommended range (? 5.0-8.5 grains).

Security, pairing and maintenance

Equipped with an **ambidextrous safety selector** and folding sights, the rifle is designed for versatile and safe use. CO? cartridge operation simplifies maintenance-simply change the cartridge and wipe the barrel regularly after use.

Recommended use

Designed for **target shooting** , training and leisure, this rifle will appeal to users looking for a high-performance, modular and ready-to-use semi-automatic replica.

FAQ

- **What type of shot should I use?** .177 (4.5 mm) shot, 5.0-8.5 gr, is suitable for a good compromise between speed and accuracy.
- **Which CO? cartridge is needed?** 88g cartridge housed in the detachable stock.
- **Can optics be mounted?** Yes, M1913 Picatinny rail and M-LOK handguard compatible with optics and accessories.
