A field rifle designed for lovers of fine firearms

The **Yildiz Deluxe Over-and-Under Shotgun with Ejectors, 20/76 Gauge,** immediately impresses with its elegant lines and high-quality finish. Designed for small game hunters seeking a lightweight and comfortable firearm, it offers an excellent balance between traditional aesthetics and on-the-ground performance.

The comfort of the 20 gauge

Particularly appreciated for its smooth firing and light weight, the **20 gauge** allows you to fully enjoy long days of hunting. Combined with a low weight of only 2.6 kg or 2.8 kg depending on the version, it provides remarkable maneuverability during movement and rapid firing.

Ejector mechanism for smoother action

Unlike conventional extractors, the ejector system automatically ejects spent casings after the firearm is opened. This feature speeds up reloading and provides greater fluidity during sustained hunting activities.

Two stock configurations to choose from

The **English-style stock** version prioritizes lightness and quick shouldering, while the **pistol-grip** version offers a more enveloping grip. In both cases, the oiled and sanded walnut highlights the natural wood grain and contributes to the overall premium character.

Engraved rocker and silver finish

The lightweight alloy receiver features an elegant silver finish adorned with fine engravings. This aesthetic detailing gives the firearm a refined appearance while maintaining a low weight, particularly appreciated for hunting in open fields.

FAQ

What is the difference between an English stock and a pistol grip stock?

The English stock prioritizes lightness and speed of movement, while the pistol grip offers a more pronounced grip and increased control when firing.

What is the advantage of automatic ejectors?

The ejectors automatically expel the casings after the weapon is opened, making reloading easier and faster.

How many chokes are supplied with the shotgun?

The rifle comes with 5 interchangeable chokes: Full, 3/4, 1/2, 1/4 and Cylinder in order to adapt the shot pattern to different hunting situations.
