EN10003	Choke removal key	Vente libre	21.00 € incl. tax

The compact wrench that disassembles most chokes, from .410 to 10 gauge.

The **Real Avid FINI™ Universal Choke Wrench** is made of **stainless steel** with an ultra-durable **aluminum body** . Compatible with most **chokes** from **.410 to 10** gauge, it makes removing even the most stubborn chokes easy while remaining compact enough to carry anywhere.

- **Type:** Universal choke wrench
- **Compatibility:** Most choke brands
- **Compatible calibers: .410 to 10**
- **Blade:** Stainless steel
- **Body:** High-strength aluminum
- **Additional function:** Integrated flathead screwdriver
- **Format:** Compact keychain

A universal key always within reach

The **Real Avid FINI™** was designed to accompany hunters and shooters on the go. Its compact size with a key ring means it's always within easy reach for quickly removing or replacing a **choke tube** .

Compatible with most chokes on the market

Thanks to its universal profile, this key is suitable for most brands of chokes from **.410 to 10 gauge** . The various machined notches offer wide compatibility and simplify assembly and disassembly operations.

A robust construction

The **stainless steel** blade is designed to withstand the forces required to remove seized or tightly tightened chokes. Its robust **machined aluminum** body ensures an excellent grip while minimizing overall weight.

A very handy built-in screwdriver

Beyond its role as a choke wrench, the FINI™ incorporates a **flathead screwdriver** . This allows for minor adjustments to a scope, tightening a screw, or performing quick interventions in the field without needing multiple tools.

FAQ

What sizes is this wrench compatible with?

It is compatible with most chokes from .410 gauge up to 10 gauge.

Can it remove a tightly tightened choke?

Yes. Its stainless steel blade is designed to offer the necessary robustness to loosen even the most difficult-to-remove chokes.

What is the purpose of the built-in screwdriver?

The flathead screwdriver allows for quick adjustments or repairs, such as adjusting scope turrets or tightening screws.
