To deoxidize old and collectible weapons.

Removes traces of oxidation, corrosion bloom or rough pitting in just a few moments.

This treatment is suitable for corroded weapons and stops the progression of pitting.

INSTRUCTIONS FOR USE:
Disassemble the parts to be treated. Spread the fine deoxidizer with a brush in several successive applications, rub with steel wool until the oxidation stains disappear, rinse with water while brushing and dry if necessary with a hair dryer.

PRECAUTIONS AND RECOMMENDATIONS:
It is essential to stabilize the metal with a neutralizer before undertaking any other treatment. Apply the neutralizer several times, as some steels can become porous. Wear gloves.
