Avoids the oxidation of unprotected polished weapons.

Must be applied after LEX-ROUILLE or DESOXYDANT FIN, in order to neutralize and stop their action.

MANUAL :
After treating the metal parts with the fine deoxidizer or the shock-gel and cleaning them or after polishing, apply the neutralizer using a wick pad, several times depending on the porosity of the metal.

PRECAUTIONS AND RECOMMENDATIONS:
Old weapons in war white finish are sensitive to oxidation. Pass a little neutralizer before the special neutral oil, this will strengthen their strength and purity of their luster. Gloves are essential.
