SKU	Designation	French Law	MSRP
A69497	Rear wired	Vente libre	128.00 € incl. tax
A69498	Front wired	Vente libre	97.00 € incl. tax

ASTER V2 is a younger brother of well-known TITAN V2. This world's first 4th generation AEG Control System is destined for most of AEGs with **gearbox V2** on the market (including stock, low- and mid-tuned) and even for high-tuned guns (in case of EXPERT firmware). It was designed to achieve maximum reliability at attractive price and hence it has extremely profitable price-performance ratio.

Transform your AEG by replacing trigger contacts with computerized controller equipped with innovative optical sensors, including proximity trigger sensor which offers even 250 sensitivity settings. Gain unique tactical advantage thanks to extremely fast trigger response and lots of other useful functions. ASTER's smart fuse protects your AEG's battery, motor and the controller, even in case of reverse battery connection. This feature, along with the optical sensors, makes ASTER the most durable drop-in unit on the market. You choose how to configure ASTER - simply via trigger or through USB-Link / Blu-Link* and our advanced GCS app. To enjoy full potential of ASTER, you can upgrade its firmware to ADVANCED or EXPERT.

Contents of the box:

- November 2023 Update: New firmware including Expert mode
- ASTER module with Basic version software
- ASTER patch
- Programming card via detnt
- Installation kit
- Quick Start Guide

Functions:

- Programmable firing modes
- Pre-cocking (spring pre-compression)
