| CA17091 | Roadster IGT 10x 5.5 mm | D | .22 (5.5 mm) | 10 | 19.9 | 208 | 52 | 131 | 349.00 € incl. tax |

Gamo air rifle 10 shots with flat magazine and open sights!

The Gamo Roadster incorporates the new 10-shot automatic reloading system by tilting the barrel. The new 10x magazine is lighter and more discreet: when flat, it leaves the open sights free!

In addition, the Roadster 10x is a concentrate of the latest Gamo technologies:

- 10x Magazine: Rapid fire without reloading
- SWA™: butt plate with shooter-adaptable hardness
- RRR™: Recoil Absorbing Scope Mount
- CAT™: Dimpled trigger with adjustable starting strokes
- Whisper Fusion™: Quieter dual-compartment sound moderator.
- IGT™: Gas cylinder that replaces the spring for hyper-regular shots.

Rifle with 11mm rail for optical mounting, supplied with 1 x 10x magazine.

The incredible Gamo Roadster IGT 10X GEN2 has arrived, with for the first time a moderator of its latest generation Whisper Fusion, the inert gas power plant of Gamo, a new ergonomic synthetic stock for thumbs and new technology 10x GEN 2 patent pending. This new multi-shot system includes our advanced horizontal magazine, making it lighter, 25% more compact and more discreet with the inclusion of open sights, allowing you to shoot without a range.

Your choice: with this new recharging system, the user can forget to use a telescopic sight, shooting with open sights if desired. In addition, it allows the user to define standard frames, which makes it compatible with other Gamo glasses.

Improved compactness and lightness: the 10X GEN2 Multishot system was developed considering that a rifle must not only be powerful, but also handy, comfortable and ergonomic, so this new magazine has been optimized to offer more in less space.

Aesthetics and design: The new generation of Gamo rifles has been designed according to the

latest market trends, always maintaining an excellent compromise between user-friendliness, ergonomics and design.
