With over 100 years of service, John Browning's semi-automatic pistol design is arguably the most popular handgun among military, law enforcement and civilian circles. There is a good reason why the 1911 is the most famous military weapon in the world; Even today, some elite fighting units in the United States still choose to wear the venerable 1911 by their side. Its simple design made the firearm easy to use and maintain, making it a very sturdy and reliable weapon. The success of the weapon prompted many gun manufacturers

to borrow the design and design of 1911; To this day, the 1911 is still widely used as a benchmark when comparing handguns.
