**Faithful to the original thanks to the close cooperation with ASG, the company has made Scorpio EVO 3 A1 in Denmark. Design and electronics are the signatures of this neat weapon replica.**

The faithful design of the CZ scorpion Evo 3 A1 has been particularly neat to the point of using the original molds for the hand guard and my butt. It has picatinny rails to accessorize the replica. The on-board electronics manages the number of remaining balls and stops shooting once the magazine is empty.

It works either piecemeal, burst 3 shots (3burst) or continuous gust. With its right-handed or left-handed fire selector, its foldable and adjustable 3-point stick, its weight of 2.45 kg will be suitable for all fans of the airsoft.

- Operation: electric (see related articles)
- Size: 6 mm
- Power: 1. 8
- Speed: 446 fps is 136 m / sec - balls 0. 20 gr
