NUM690	VIS1053 thermal vision monocular	Vente libre	16.7	4.5	274	4x	50 mm	749.00 € incl. tax

Thermal vision allows you to instantly spot animals in the darkest night!

Thermal vision brings out in orange or white depending on the mode chosen the hottest elements of the image: animals, heat leaks, hot areas ...

You can use the VIS1053 for hunting, search and rescue, wildlife viewing, but also for hiking!

The lightness of this thermal vision monocular makes it easy to store, in a jacket pocket for example.
