Keep at bay and neutralize quickly thanks to a visible electric arc and an integrated LED light.

The **Shocker** is a rechargeable stun gun that combines a powerful electroshock function with an LED flashlight for surveillance and deterrence. A slide switch allows you to switch between flashlight and stun gun mode.

- **Legal category:** D (Sale prohibited to minors)
- **Output voltage:** 300,000 V
- **Length:** 16.2 cm
- **Diameter:** Ø 34 mm
- **Weight:** 100 g
- **Lamp:** Integrated LED (proximity lighting)
- **Color:** Black
- **Charging:** USB-A to Micro USB Cable

Recommended use

Designed for deterrence and temporary security of a person or home, this tool combines a strong sensory effect (sound and visible arc) and a lamp to illuminate dark areas. Ideal for situations where visibility and the ability to temporarily remove an attacker are necessary. Reminder: Sale prohibited to minors and respect local regulations.

Electric arc and effect

The main element produces a visible and noisy high-voltage arc. Upon contact, this arc temporarily disrupts the target's neuromuscular coordination and creates an immediate deterrent effect. The electrodes are protected by a plastic cap to limit accidental contact when the device is stored.

Battery and charging

Equipped with a built-in high-capacity lithium-polymer battery, the device charges via a supplied USB cable. The design allows for easy charging via a standard USB-A port—convenient for retailers and users who benefit from a universal charging solution.

Construction and ergonomics

Reinforced **ABS engineering plastic** shell with rubber insert for a secure grip. The gooseneck design makes it easy to grip and position the lamp and electrodes. The device remains lightweight and compact for discreet transport.

Safety and components

- **Input voltage:** 3.7 VDC
- **Current capacity:** ? 2.5 A
- **Battery:** Built-in lithium polymer
- **Connections:** USB-A to Micro-USB cable supplied
- **Materials:** High-strength ABS with rubberized finish
- **Electrode protection:** plastic cap

FAQ (Questions / Answers)

Q: What are the conditions of purchase?

A: Sale prohibited to minors. Comply with applicable local regulations.

Q: Is the charger included and compatible?

A: Yes, the device comes with a USB-A to Micro-USB cable that is compatible with most standard chargers.

Q: How do I maintain the device?

A: Unplug before cleaning, wipe the shell with a dry cloth, avoid wetting the electrodes and store out of reach of children.
