Made in Denmark, for Scoprion EVO3 only

ctionSportGames are proud to present the Ultimate EVO CNC Performance Hop Up. A unique design created to enhance the performance of all models within the EVO family.
Constructed from a single piece of aerospace grade aluminium this revolutionary new hop up offers a range and accuracy increase of up to 20 per cent! Suitable for all BB weights and fully compatible with aftermarket hop up rubbers the this CNC'd unit features a fully customisable stepless hop up adjustment with laser engraved increments allowing you to easily record the most effective setting for your EVO.
Easy to install in minutes, this essential upgrade allows you to perfectly tailor the hop setting to your individual EVO and will even improve 'flat hop' and 'r hop' installations.
Like all of our EVO components the Ultimate EVO CNC Performance Hop Up is designed, developed and manufactured in Denmark to the highest standards, resulting in a high quality finish and a flawless shooting experience with a longer range and tighter grouping for the airsoft skirmisher or target shooting enthusiast

Features:

- New Generation of hop up design and performance "EVOlution". Designed and Made in Denmark.
- Fully compatible with all hop-up rubbers and BB weights in the market.
- Hop up Chamber CNC machined out of a single piece of aerospace aluminum.
