- **Cylinder head:** Metal
- **Handle material:** Polymer
- **Aiming:** 3 fixed points
- **Weight:** 475 g
- **Total length:** 198 mm
- **Energy:** < 0.5 joule

A faithful replica of a legendary pistol

The **SIG SAUER P226** has left its mark on the history of modern handguns. Designed in response to a US Army request for proposals in the 1980s, it was chosen by numerous special forces units worldwide, such as the **Navy SEALs** and some French forces. This spring-powered replica retains its aesthetics and ergonomics, with a **metal slide** that enhances the feeling of realism in the hand.

Metal cylinder head : realism and durability

Unlike most basic spring replicas, this model features a **metal slide** , offering better inertia, a more realistic feel and increased **robustness** over time.

3-point aiming for intuitive shooting

Fixed sights with **contrasting dots** allow for rapid target acquisition. This type of sight is popular for dynamic **recreational shooting** sessions.

Single action spring system

The **single-action** mechanism requires manual cocking for each shot, promoting accuracy. It's an ideal format for learning the fundamentals of shooting or practicing in a fun way.

Secondary specifications

- **Hop-up:** Non-adjustable
- **Accessory mounting:** Without rail
- **Recommended amount of beads:** 0.12 g
- **Barrel threading:** None
- **Color:** Black

FAQ

Is the cylinder head really made of metal?

Yes, this replica has a metal slide, which enhances the realism and feel in hand.

Can an accessory be mounted under the barrel?

No, this version of the P226 does not have a Picatinny rail under the barrel for accessories.

What type of marbles should I use?

6mm BBs weighing 0.12g are recommended to optimize the range and operation of the spring system.
