- **Rail:** Picatinny M1913
- **Sights:** Contrasting metallic
- **Length:** 216 mm
- **Weight:** 48 oz (~1360 g)

Inspired by the M17 military pistol

This replica faithfully reproduces the aesthetics of the **M17** pistol adopted by the US military, featuring a metal blowback slide and a balance close to that of the real firearm. Available in black and tan versions, you can choose the style best suited to your tactical or training needs.

CO2 or Green Gas system: versatility and performance

Depending on the version chosen, you can propel your BBs using a **12g CO2 cartridge** or a **Green Gas** magazine. CO2 generally offers higher power (up to ~410 fps), while Green Gas provides a smoother and more consistent recoil in warm environments.

Practical and efficient equipment

With an **M1913 Picatinny** rail under the frame, this replica is ready to accommodate a light, laser, or tactical accessory. The contrasting metal sights facilitate aiming in various lighting conditions, for accurate and responsive shooting.

Robust design and realistic feel

The metal construction of the slide with blowback mechanism provides a feel close to that of a real firearm, enhancing the experience during training or gameplay. The overall design maintains balanced ergonomics, remaining comfortable in the hand even during extended shooting sessions.

FAQ

What are the differences between the CO2 and Green Gas versions?

The CO2 version generally offers higher and more consistent power in cold weather, while the Green Gas version provides a smoother recoil and better thermal consistency. The choice depends on your playing style and usage conditions.

Are the chargers interchangeable between versions?

No, CO2 and Green Gas chargers are not interchangeable because they incorporate different propulsion systems and valves adapted to each type of gas.

Is this pistol suitable for professional training?

Yes, the ProForce M17 replica is designed for advanced training exercises and tactical simulations, with a realistic build and performance tailored to the needs of training professionals.
