### High performance 34mm body LPVO scope combining the advantages of a riflescope and a reflex sight.

SAS (Speed Aiming Solution) reticle developed by Falke at the first focal plane (FFP).

- Red illuminated reticle with 11 brightness levels.
- Impact correction per click: 0.1 MRAD (1cm at 100m)
- Turret protection caps
- 34mm scope body
- Fixed parallax set to 100m
- Windage and elevation adjustment range: 35 MRAD

Supplied with: Flip-Up protective caps, screw-on magnification adjustment lever (Throw Lever) and honeycomb kill-flash system.

The SAS (Speed Aiming Solution) reticle developed by Falke enables rapid target acquisition in the outermost circle of the reticle.

This circle "disappears" at higher magnifications, providing a graduated reticle with bullet drop control (BDC) allowing shot corrections. An additional graduation will allow the estimation of the distance according to the height of the target.

The reticle can be illuminated in red in 11 brightness levels.

The MRAD click-adjustment towers from 1cm to 100m are protected by sturdy screw-on caps.

Magnification value: 1x-8x

Lens diameter: 24mm

Tube diameter: 34mm

Length cm: 27.8 cm

Weight g: 567 g

Windage Adjustment Range: 34.91 MIL

Elevation Adjustment Range: 34.91 MIL

Field of View (FOV) (m / 100m) 34.6 - 4.34

Focal plane: First focal plane

Diopter compensation: +2 ~ -2
