The Winchester semi-automatic rifle for driven hunting!

Designed for demanding hunters, the **Winchester SXR² Field semi-automatic rifle** combines power, robustness, and shooting comfort. Available in popular calibers (.308 Win, .30-06 Sprg., .300 Win Mag, 9.3x62), it adapts to all hunting situations, whether driven or from a stalking position. Its proven mechanics offer excellent rearming fluidity and an optimal rate of fire, while its oiled walnut stock and innovative Inflex II buttplate effectively reduce recoil.

Winchester is renewing its range with the **SXR² Composite** , an evolution of the SXR Vulcan after more than 13 years of impeccable service.

A robust and proven mechanism

Its **adjustable gas system** ensures a reliable firing cycle, even with **subsonic ammunition** or when using heavy accessories. The **7-lug rotating bolt** provides secure and consistent locking.

FN Herstal precision and reliability cannon

Its **53 cm barrel** , manufactured in Belgium by FN Herstal and CIP proven, guarantees robustness and precision on all calibers: **.308 Win** , **.30-06 Sprg.** , **.300 Win Mag** and **9.3x62** .

Wooden stock: elegance and ease of use

Its redesigned **wooden stock** features a **straighter grip** , ambidextrous palm swell, and modern checkering for a reliable and secure hold in all weather conditions. The **Inflex II recoil pad** absorbs recoil for more comfortable shooting. Custom fit is achieved with the included spacers.

Adjustable ergonomics and perfect grip

The stock can be adjusted:

- +/- 3.5 mm in height
- +/- 3 mm drift

- Standard length: 360 mm, extendable with a 7 mm spacer or optional butt plate (25 mm or 30 mm)

Functional controls and increased safety

The **contoured handguard** reduces its width by 10% for improved grip. The **enlarged charging handle** makes it easier to operate even with gloves, and the **slide stop** provides added safety during loading and unloading.

Rapid aiming and total modularity

Adjustable sights with ultra-bright LPA fiber optics ensure rapid target acquisition. Compatible with existing SXR mounts, the SXR² Composite features integrated rings and Nomad rails for custom optic mounting.

Full technical specifications

- Action: Semi-automatic with adjustable gas impingement
- 7-lug rotating lock
- Canon: 53 cm, FN Herstal, CIP proofed
- Calibers: .308 Win / .30-06 Sprg. / .300 Win Mag / 9.3x62
