- Clean the inside and outside of the shoe with a damp lint-free cloth.
- Never dry wet shoes near a heat source or in direct sunlight.
- Maintenance of velvet-like leathers (split leather, nubuck): brush the surface using a soft brush to remove dust then apply a waterproofing agent (never use shoe polish).
- Maintenance of smooth-looking leathers: wipe the surface with a soft damp cloth then apply a small amount of wax-based product to create a protective film on the shoe.
