Hunter Tech

Very functional shape, designed for the real hunter.

Made with scratch resistant material and high tenacity printing to protect key areas.

To keep in touch with the design, the print looks like a checkerboard pattern on the butt or back of a pistol.

Therefore, the design mixed with the functionality. Design and material communicate innovation and technicality, showcasing the Beretta soul.

Each product is built around functionality and ergonomics. A distinct high tenacity print increases the durability of the items themselves. YKK zippers
