Benelli's first bolt-action rifle, designed for precision and comfort

The **Benelli Lupo synthetic BE.ST rifle** is the Italian brand's first **bolt-action rifle**. Available in **.243 Win**, **.270 Win**, **.30-06 Springfield**, **.308 Win** and **.300 Win Mag**, it is distinguished by its free-floating threaded barrel, its aluminum frame and its Progressive Comfort recoil reduction system. A weapon designed for **stalking** and **approach**, combining innovation and reliability.

- **Brand:** Benelli
- **Model:** Lupo BE.ST synthetic
- **Type:** Bolt-action rifle
- **Calibers available:** .243 Win, .270 Win, .30-06 Spr, .308 Win, .300 Win Mag
- **Capacity:** 4+1 shots (.300 Win Mag), 5+1 depending on caliber (.243 Win, .270 Win, .30-06 Spr and .308 Win)
- **Barrel:** Free-floating BE.ST, 56 cm (.243, .270, .30-06, .308) / 61 cm (.300 Win Mag)
- **Thread:** M14x1
- **Frame:** Rigid aluminum
- **Stock:** Black synthetic with Progressive Comfort system and Combtech comb
- **Weight:** approx. 3.1 kg (depending on size)
- **Features:** Adjustable trigger (1-2 kg), adjustable trigger, AirTouch checkering

The **Benelli Lupo synthetic BE.ST** is the first **bolt-action rifle** designed by Benelli. Available in 5 major calibers (.243 Win, .270 Win, .30-06 Springfield, .308 Win and .300 Win Mag), it is designed for **approach** and **stalking**, offering precision, comfort and modularity.

Aluminum chassis and rigid housing

The **aluminum chassis** guarantees absolute rigidity, providing exceptional precision. The rigid heat-treated steel **receiver**, combined with a BE.ST fluted slide, ensures smooth cocking and maximum reliability.

CRIO and BE.ST floating cannon

The BE.ST **cryogenically treated free-floating barrel** delivers outstanding sub-MOA accuracy and increased barrel life. Crio cryogenic treatment improves shot pattern consistency, reduces wear, and ensures consistent accuracy shot after shot.

Unparalleled shooting comfort

The stock is equipped with the 3rd generation **Progressive Comfort** system, which gradually reduces recoil depending on the ammunition used. Combined with the **Combtech** cheekpiece, which cushions the impact on the cheek, shooting becomes more ergonomic and comfortable.

Personalization and ergonomics

Thanks to the **Perfect Fit** system, the hunter can adjust the slope and deflection of the stock (up to 40 combinations). The **adjustable trigger** allows the distance and weight of the shot to be adjusted (1 to 2 kg), providing optimal positioning.

Benelli AirTouch Technology

The **AirTouch grid** applied to the grip surfaces (stock and foregrip) ensures **optimal grip** and natural ventilation of the hand. It guarantees fast and precise shouldering, even in difficult conditions.

An integrated precision system

Subjected to rigorous testing, the **Lupo** guarantees sub-MOA accuracy for three shots with quality ammunition. Designed with a set of integrated solutions (3-lug slide, aluminum frame, BE.ST free-floating barrel), it offers very high-level ballistic performance.

Choose the Benelli Lupo synthetic BE.ST rifle and discover an innovative, reliable and precise bolt-action rifle, designed for passionate hunters seeking comfort and efficiency.
