TDC1032	Distance measurement	Vente libre	3	7.5	-

Apparatus with empirical operation, graduated from 50 to 800 yards, which makes it possible to estimate the distance of an object, a game, a target.

Robust tool made from solid brass. The graduations are engraved and blackened.

Supplied in a bag with instructions for use.

In order to appreciate the distance from the target, stretch the string in front of you from your chin, adjust the bar until the target fits perfectly into the formed square. All you have to do is read the distance indicated on the device by means of the graduations.
