Precision ammunition for 9mm pistols

The **GECO Hexagon 9x19mm** is a high-precision cartridge designed for competitions or demanding technical training. Its JHP bullet is not intended for expansion: it is designed for aerodynamics, regularity, and stability of fire.

Advanced projectile technology

The projectile features a closed-shell base, stabilizing grooves, and optimized internal geometry. The low lead content reduces deposits and increases barrel life. Thanks to its ballistic coefficient of 0.180, this ammunition remains stable even at intermediate ranges.

- **At 0 m:** 350 m/s **-** 490 J
- **At 10 m:** 341 m/s - 465 J
- **At 25 m:** 328 m/s - 430 J
- **At 50 m:** 311 m/s - 387 J

Demand, consistency, performance

Used with a 150mm barrel, the GECO HEXAGON ensures match-level accuracy thanks to its rigorously controlled construction. A must-have for sport shooters practicing target shooting with semi-automatic pistols.
