### **Deep penetration and massive expansion for very large game.**

The design of Norma balls is one of the most renowned in the world. Norma offers a fantastic range in which each cartridge is synonymous with reliability, accuracy and efficiency.

The .35 Whelen caliber is particularly suitable for hunting wild boar and large deer.

### **Norma Oryx**

The Oryx is a deformation bullet with high mass conservation thanks to the core welded in lead to the jacket

- Slim anterior sheath for rapid expansion
- Harder posterior sheath
- Significant mass retention

### **A welded bullet designed for the most demanding game**

The Norma Oryx in .35 Whelen is designed to deliver **massive expansion** and **unrelenting stopping power**. Its unique bonded construction allows it to retain up to 99% of its original weight while forming a consistent mushroom shape upon impact. It's an ideal solution for shooting massive animals such as northern deer or large wild boar.

### **Speed**

- V0 740 m/s
- V100 659 m/s

- V200 583 m/s
- V300 513 m/s

### Energy

- E0 4438 J
- E100 3518 J
- E200 2755 J
- E300 2133 J

### A trusted caliber for serious missions

Ideal for short- and medium-range shooting in woods or dense areas, the .35 Whelen loaded with a 250g Oryx offers a **consistent ballistic curve** and unmatched terminal performance. Perfect for powerful shots on tough game, whether driven or stalking.

- Immediate expansion without loss of mass
- Suitable for elk, heavy boar, mountain deer
- Consistent performance under all conditions
