The **Beretta BRX1 synthetic** is a revolutionary hunting rifle, modern, ambidextrous and fully modular. Available in **.308 Win** , **.30-06 Springfield** and **.300 Win Mag** calibers, it is aimed at hunters looking for speed, fluidity and precision.

Smooth, ambidextrous linear reset

Equipped with a **linear reloading breech** with rotating lock (8 lugs for standard calibers, 16 for magnums), the BRX1 guarantees safety and speed. The ejection and the loading lever are **reversible in a few seconds** , without tools, to suit both right-handed and left-handed users.

Precision and reliability guaranteed

Its **cold-hammered, free-floating barrel** , combined with a one-piece action, ensures perfect rigidity and remarkable accuracy. NATO qualification tests, usually reserved for military weapons, attest to the **BRX1** 's exceptional reliability. Performance is sub-MOA, with an accuracy of less than

one minute of angle.

Modular ergonomics and comfort

The **non-slip technopolymer stock** is adjustable in length thanks to spacers. The **interchangeable pistol grip** allows the weapon to be adapted to each body shape. The modular butt plate and 3-position safety guarantee comfort and safety in all circumstances.

Adjustable trigger and versatility

The three-stage **adjustable trigger** (950g, 1.2kg, 1.5kg) allows for customizing the starting weight. The high-visibility orange polymer magazine, with a capacity of 5+1 rounds, is secured by a double release button. The integrated 21mm Picatinny rail facilitates the mounting of an optic.

A weapon designed for all hunting methods

Designed for **driven hunts** , **stalking** and **stalking** , the **BRX1** offers fast reloading, accuracy and comfort. Its interchangeable barrels and modularity make it suitable for all hunting environments. Beretta has thus successfully entered the field of linear rifles with a modern and versatile weapon.

Choose the Beretta BRX1 synthetic and discover an innovative, reliable linear rifle perfectly suited to passionate hunters.
