### Replica available with or without red dot

When compared to VORKSs standard 5.1 Hi-Capas, the CS VENGEANCE features a new adjustable rear iron-sight, an extended magazine base plate and the inclusion of a floating BDS option. The slide markings are a new pattern with some forward cut-outs revealing the fluted outer barrel within.

A common feature of our Hi-Capas is the inclusion of a Flash-Hider, that expertly covers a 12 mm (CW) to 14 mm (CCW) thread adaptor, making VORSK Hi-Capas “attachment ready”, especially with the real-estate provided by the Picatinny under barrel.
