<https://www.europarm.fr/en/produit-16494-R-PUR-Nano-Pro-protective-mask-black-FFP3>

R-PUR

SKU	Designation	French Law
-----	-------------	------------

The world's most efficient filtration solution dedicated to athletes

- Filtration superior to the highest European standard with its 8 filter layers
- Airtight over 99% and suitable for all face shapes
- Greater breathability adapted to physical efforts
- Antifog
- Interchangeable filter with a duration of use of 35 sports sessions
- Monitoring of the state of wear of the filter using your smartphone
- Optimal comfort and increased breathability
- Water repellent fabric
- Adjustable fastening system, with excellent support designed especially for sports activities.
- Allows physical activities such as walking, cycling, running, cross country

In addition to its modern, sporty and elegant design, the R-PUR Nano Pro offers the most efficient protection on the market.

For sports shooters, operating in closed environments, the protective mask will filter all the gases and powder residues emanating from the shots. It will be possible to fire a significant number of ammunition, and in particular certain surplus AK47 ammunition while preserving your respiratory tract.

For athletes, it will significantly improve your lung capacity to prepare you for high mountain expeditions.

The Nano Pro is essential everyday equipment.

In view of the current global health situation, it will perfectly protect against the covid-19 and coronavirus virus with its high FFP3 protection standard.

Wondering how to protect yourself from exhaust fumes? The R-PUR Nano light will meet all your expectations. You live in an urban area and you go to work on foot, by bicycle or motorbike.

R-PUR masks will filter gases, dust and nanoparticles, without giving you the impression of suffocating in your mask. Its impressive filtration capacities do not affect the breathability of the mask. It allows you to practice sporting activities requiring calm to moderate effort, while maintaining excellent lung capacity.

Whether you use it in hot or cold weather, the Nano Light will not cause any fogging for eyeglass wearers, or on motorcycle helmet visors.

In summer it will be able to stay cool. In winter it will be warm and comfortable.

These premium materials used make it completely water-repellent and will allow you to stay dry, even in wet weather.

Delivered with a unique certificate to be activated by means of the downloadable application on your smartphone, you will have the guarantee of the authenticity of the mask, of its full performance and you will be able to follow the state

Laboratory tested
