- **Imitations:** Fawn, female and young male
- **System:** Innovative external blades
- **Adjustment:** Orange modulation rings
- **Use:** Hunting and observing roe deer
- **Ergonomics:** Intuitive handling

A deer call specifically designed for roe deer

The **Helen Baud AC154 Acrylic Roe Deer Call** has been developed to accurately reproduce several characteristic roe deer vocalizations. Its use allows you to attract or locate animals by reproducing credible and natural sounds, particularly useful during periods of game activity.

Three imitations in one call

Thanks to its innovative design, this call is capable of imitating the calls of **fawns**, **does**, and **young roe deer**. This versatility offers more possibilities in the field and allows calls to be adapted to different circumstances.

External blade technology

The external blade system makes it easy to produce a variety of sounds while maintaining excellent realism. Different tones can be obtained quickly without requiring complex techniques, making the call accessible to both experienced and beginner users.

Precise and intuitive settings

The orange adjustment rings allow for easy modulation of the tone and intensity of calls. Mouth positioning also influences the sounds produced, offering a wide variety of vocalizations and precise control over call sequences.

Sturdy acrylic construction

Made from high-quality acrylic, the AC154 is perfectly resistant to the stresses of outdoor use. Its material ensures excellent sound stability regardless of the conditions encountered in the field, while also guaranteeing a long lifespan.

FAQ

What sounds can the AC154 bird call reproduce?

It allows you to imitate the vocalizations of the fawn, the doe and the young roe deer thanks to its system of adjustable external blades.

Is the call easy for a beginner to use?

Yes, its ergonomic design and adjustment rings allow you to quickly obtain realistic sounds with minimal practice.

What are the advantages of acrylic for a bird call?

Acrylic offers excellent sound quality, good resistance to outdoor conditions and great durability over time.
