The lightness of a modern rifle with the strength of steel

The **Beretta Ultraleggero** revolutionizes the world of **over-and-under shotguns** . Thanks to a hollowed-out steel receiver and innovative technopolymer inserts, it combines **strength** and **lightness** , weighing less than 3 kg. Available in **71 cm** or **76 cm** barrels, it is chambered in **12/76 magnum** and remains of the elegance typical of the Italian brand.

- **Brand:** Beretta
- **Model:** Ultraleggero
- **Type:** Over-and-under shotgun
- **Caliber:** 12/76
- **Barrel:** 71 cm or 76 cm

- **Stock:** Class 2.5 walnut wood, sanded and oiled
- **Rocker:** Hollowed steel with technopolymer inserts
- **Butt plate:** Extralight® light and resistant
- **Chokes:** 5 interchangeable OBHP

The **Beretta Ultraleggero** marks a revolution in the world of **over-and-under shotguns** . By combining a hollowed-out steel receiver, technopolymer inserts and a high-quality walnut stock, it manages to combine robustness, elegance and a weight of less than 3 kg. A major innovation that will appeal to demanding hunters.

A lightweight and innovative steel scale

Unlike traditional shotguns, the **Ultraleggero** maintains the strength of a **steel receiver** while reducing its weight thanks to precise recesses and the addition of technopolymer inserts. These inserts are decorated with innovative floral motifs and angled to reflect light, recalling the visual

effect of engravings.

Unparalleled lightness

Weighing less than 3 kg, this **shotgun** outperforms most steel models. The use of an aluminum trigger guard, a redesigned forearm, and an **Extralight®** buttplate allows for a weight saving of approximately 400 grams compared to a conventional shotgun. The buttplate also provides comfort and excellent recoil absorption.

High-performance, proven guns

The **Ultraleggero** is equipped with **Steelium® Optima Bore® HP** barrels made of tri-alloy steel, cold hammered and vacuum hardened. Their special geometry with a double 80 mm connecting cone ensures perfectly homogeneous patterns, suitable for all types of modern ammunition.

Elegance and comfort

The **grade 2.5 walnut** stock and fore-end provide warmth and refinement. Their oiled finish facilitates maintenance and repair in case of scratches. With its fluid and elegant line, typical of Beretta, this shotgun maintains perfect balance on the shoulder despite its reduced weight.

Choose the Beretta Ultraleggero caliber 12/76 with 71 or 76 cm barrels and discover a unique, lightweight and robust over-and-under **shotgun** , designed to accompany the modern hunter on all his outings.
