A featherweight tripod for incredible shooting stability

A high-end shooting tripod used by sports shooters, hunters and law enforcement for standing, sitting or lying down shooting.

- Machined from aircraft aluminum alloy
- Reversible 3/8"-16 or 1/4"-20 thread for mounting a weapon rest head
- 3 foot spread positions
- Durable foam coating for a secure and firm grip
- Legs with 3 extensions with robust locking system
- Maximum authorized load: 11 kg
- Central column adjustable in height and reversible.
- Fully extended height: 1.82 cm
- Fully folded height: 68 cm
- Weight: 2.495 kg
- Delivered without the weapon support

Model designed in carbon for incredible lightness and resistance. They are intended for sport shooters and hunters looking for an easy to transport shooting support, while offering excellent shooting stability.

Developed for precision, KJI tripods are intelligently designed to provide the shooter with incredible shooting comfort and stability.

Initially dedicated to members of law enforcement, the KJI PRECISION shooting supports do not compromise on quality, resistance and finishes. They provide secure support for the weapon and relieve the shooter who has to keep his position for long hours.

Its adjustable feet coupled with interchangeable rubber pads allow it to adapt to all types of terrain, even the most uneven.

They are intended for both shooters and hunters but also for photographers and nature lovers. Its 3/8''-16 attachment and its maximum load of 9kg allow you to attach your photo box associated with the heaviest of photo lenses.
